

Rental Shop Technician

About Bluebird Backcountry

Bluebird Backcountry is the first and only fully human-powered, inbounds backcountry ski area in the country. With a mission to make backcountry skiing safer and easier to learn, our operation features a 1,200-acre avalanche-evaluated and ski-patrolled area with zero chairlifts.

Guests come to try backcountry skiing, develop their backcountry skills, and explore new terrain in a relatively safe, welcoming and social backcountry environment. We bring together the comforts of a ski resort, the expertise of a guide service, and the adventure of the true backcountry.
